El rompecabezas. Anatomía del maltratador (Spanish Edition) Miguel Lorente Acosta

Disponemos ya, afortunadamente, de bastantes libros sobre la violencia de género desde el punto de vista de la víctima, pero hasta hoy no se había publicado ninguno que analice las razones que empujan al maltratador a cometer actos tan despreciables, es decir, sobre "los motivos del lobo."

El Dr. Miguel Lorente, autor de *Mi marido me pega lo normal*, disecciona en este libro, de forma magistral, la anatomía del maltratador, o de los maltratadores, porque los hombres que actúan con violencia en sus relaciones de pareja no siempre se comportan del mismo modo, ya que no existe un perfil único de agresor.

El rompecabezas nos permite descifrar el enigma de lo que significa la violencia de género a través de esa pieza clave que es el victimario y de las condiciones sociales y culturales que lo amparan.

"Hay que intentar acabar con la violencia y el conflicto como argumentos para resolver los problemas -nos dice el autor-, y apostar por el respeto como instrumento para construir las relaciones sociales de futuro, que sólo será posible si se comienza por refundar las relaciones de pareja en el presente"
