**Manufacturing Technology: Materials, Processes, and Equipment** Helmi A. Youssef, Hassan A. El-Hofy, Mahmoud H. Ahmed

Individuals who will be involved in design and manufacturing of finished products need to understand the grand spectrum of manufacturing technology. Comprehensive and fundamental, **Manufacturing Technology: Materials, Processes, and Equipment** introduces and elaborates on the field of manufacturing technology—its processes, materials, tooling, and equipment. The book emphasizes the fundamentals of processes, their capabilities, typical applications, advantages, and limitations. Thorough and insightful, it provides mathematical modeling and equations as needed to enhance the basic understanding of the material at hand.

Designed for upper-level undergraduates in mechanical, industrial, manufacturing, and materials engineering disciplines, this book covers complete manufacturing technology courses taught in engineering colleges and institutions worldwide. The book also addresses the needs of production and manufacturing engineers and technologists participating in related industries.

### **From reader reviews:**

#### **Bob Bartlett:**

The book Manufacturing Technology: Materials, Processes, and Equipment can give more knowledge and also the precise product information about everything you want. Why then must we leave the great thing like a book Manufacturing Technology: Materials, Processes, and Equipment? A few of you have a different opinion about publication. But one aim which book can give many info for us. It is absolutely right. Right now, try to closer with your book. Knowledge or data that you take for that, you may give for each other; you may share all of these. Book Manufacturing Technology: Materials, Processes, and Equipment has simple shape however, you know: it has great and massive function for you. You can look the enormous world by available and read a book. So it is very wonderful.

#### **Debra Brunette:**

As people who live in the modest era should be update about what going on or info even knowledge to make all of them keep up with the era that is always change and make progress. Some of you maybe can update themselves by studying books. It is a good choice for yourself but the problems coming to anyone is you don't know which you should start with. This Manufacturing Technology: Materials, Processes, and Equipment is our recommendation so you keep up with the world. Why, as this book serves what you want and need in this era.

#### **Cary Freeman:**

Playing with family inside a park, coming to see the marine world or hanging out with close friends is thing that usually you may have done when you have spare time, then why you don't try factor that really opposite from that. Just one activity that make you not sensation tired but still relaxing, trilling like on roller coaster you have been ride on and with addition details. Even you love Manufacturing Technology: Materials, Processes, and Equipment, you may enjoy both. It is very good combination right, you still want to miss it? What kind of hangout type is it? Oh occur its mind hangout guys. What? Still don't have it, oh come on its known as reading friends.

#### **Wendell Radford:**

Do you like reading a book? Confuse to looking for your selected book? Or your book has been rare? Why so many issue for the book? But any kind of people feel that they enjoy regarding reading. Some people likes studying, not only science book but also novel and Manufacturing Technology: Materials, Processes, and Equipment or others sources were given know-how for you. After you know how the truly amazing a book, you feel want to read more and more. Science guide was created for teacher or maybe students especially. Those books are helping them to put their knowledge. In additional case, beside science reserve, any other book likes Manufacturing Technology: Materials, Processes, and Equipment to make your spare time a lot more colorful. Many types of book like this.
