## Novel Materials for Carbon Dioxide Mitigation Technology

*Materials for Carbon Dioxide Mitigation Technology* offers expert insight and experience from recognized authorities in advanced material development in carbon mitigation technology and constitutes a comprehensive guide to the selection and design of a wide range of solvent/sorbent/catalyst used by scientists globally. It appeals to chemical scientists, material scientists and engineers, energy researchers, and environmental scientists from academia, industry, and government in their research directed toward greener, more efficient carbon mitigation processes.

- Emphasizes material development for carbon mitigation technologies rather than regulations
- Provides a fundamental understanding of the underpinning science as well as technological approaches to implement carbon capture, utilization and storage technologies.
- Introduces the driving force behind novel materials, their performance and applications for carbon dioxide mitigation
- Contains figures, tables and an abundance of examples clearly explaining the development, characterization and evaluation of novel carbon mitigation materials
- Includes hundreds of citations drawing on the most recent published works on the subject
- Provides a wealth of real-world examples, illustrating how to bridge nano-scale materials to bulk carbon mitigation properties.

### From reader reviews:

#### Mark McCarver:

Playing with family in a park, coming to see the sea world or hanging out with close friends is thing that usually you might have done when you have spare time, in that case why you don't try issue that really opposite from that. One activity that make you not feeling tired but still relaxing, trilling like on roller coaster you have been ride on and with addition associated with. Even you love Novel Materials for Carbon Dioxide Mitigation Technology, you could enjoy both. It is fine combination right, you still wish to miss it? What kind of hang-out type is it? Oh come on its mind hangout folks. What? Still don't buy it, oh come on its named reading friends.

#### Jimmy Torres:

Do you have something that that suits you such as book? The e-book lovers usually prefer to decide on book like comic, short story and the biggest you are novel. Now, why not seeking Novel Materials for Carbon Dioxide Mitigation Technology that give your entertainment preference will be satisfied by means of reading this book. Reading habit all over the world can be said as the opportunity for people to know world better then how they react in the direction of the world. It can't be mentioned constantly that reading addiction only for the geeky man but for all of you who wants to become success person. So , for all you who want to start reading as your good habit, you can pick Novel Materials for Carbon Dioxide Mitigation Technology become your personal starter.

#### Shaun Richards:

The book untitled Novel Materials for Carbon Dioxide Mitigation Technology contain a lot of information on that. The writer explains your ex idea with easy way. The language is very straightforward all the people, so do certainly not worry, you can easy to read this. The book was compiled by famous author. The author will take you in the new period of time of literary works. You can read this book because you can please read on your smart phone, or program, so you can read the book in anywhere and anytime. If you want to buy the e-book, you can open their official web-site and also order it. Have a nice learn.

#### Barbara Guevara:

Within this era which is the greater individual or who has ability to do something more are more treasured than other. Do you want to become one of it? It is just simple strategy to have that. What you should do is just spending your time not very much but quite enough to possess a look at some books. One of many books in the top checklist in your reading list is usually Novel Materials for Carbon Dioxide Mitigation Technology. This book that is qualified as The Hungry Hillside can get you closer in getting precious person. By looking upwards and review this guide you can get many advantages.
