**Surface Production Operations: Volume III: Facility Piping and Pipeline Systems: 3** Maurice Stewart

Surface Production Operations: Facility Piping and Pipeline Systems, Volume III is a hands-on manual for applying mechanical and physical principles to all phases of facility piping and pipeline system design, construction, and operation. For over twenty years this now classic series has taken the guesswork out of the design, selection, specification, installation, operation, testing, and trouble-shooting of surface production equipment.

The third volume presents readers with a "hands-on" manual for applying mechanical and physical principles to all phases of facility piping and pipeline system design, construction, and operation. Packed with charts, tables, and diagrams, this authoritative book provides practicing engineer and senior field personnel with a quick but rigorous exposition of piping and pipeline theory, fundamentals, and application.

Included is expert advice for determining phase states and their impact on the operating conditions of facility piping and pipeline systems; determining pressure drop and wall thickness; and optimizing line size for gas, liquid, and two-phase lines. Also included are a guide to applying international design codes and standards, and guidance on how to select the appropriate ANSI/API pressure-temperature ratings for pipe flanges, valves, and fittings.

- Covers new and existing piping systems including concepts for expansion, supports, manifolds, pigging, and insulation requirements
- Presents design principles for a pipeline pigging system
- Teaches how to detect, monitor, and control pipeline corrosion
- Reviews onshore and offshore safety and environmental practices
- Discusses how to evaluate mechanical integrity

### **From reader reviews:**

#### **Melissa Alfonso:**

A lot of people always spent all their free time to vacation or perhaps go to the outside with them family or their friend. Do you know? Many a lot of people spent these people free time just watching TV, as well as playing video games all day long. If you wish to try to find a new activity this is look different you can read a new book. It is really fun to suit your needs. If you enjoy the book which you read you can spent the whole day to reading a guide. The book Surface Production Operations: Volume III: Facility Piping and Pipeline Systems: 3 it is very good to read. There are a lot of people that recommended this book. These folks were enjoying reading this book. If you did not have enough space to deliver this book you can buy the e-book. You can m0ore simply to read this book from a smart phone. The price is not too expensive but this book possesses high quality.

#### **Otto Tejada:**

Are you kind of stressful person, only have 10 or even 15 minute in your moment to upgrading your mind skill or thinking skill actually analytical thinking? Then you are experiencing problem with the book than can satisfy your short time to read it because pretty much everything time you only find e-book that need more time to be go through. Surface Production Operations: Volume III: Facility Piping and Pipeline Systems: 3 can be your answer as it can be read by you who have those short extra time problems.

#### **Jeannine Lawson:**

Do you like reading a publication? Confuse to looking for your preferred book? Or your book was rare? Why so many concern for the book? But any people feel that they enjoy regarding reading. Some people likes examining, not only science book but in addition novel and Surface Production Operations: Volume III: Facility Piping and Pipeline Systems: 3 or maybe others sources were given expertise for you. After you know how the fantastic a book, you feel want to read more and more. Science publication was created for teacher or maybe students especially. Those ebooks are helping them to increase their knowledge. In some other case, beside science guide, any other book likes Surface Production Operations: Volume III: Facility Piping and Pipeline Systems: 3 to make your spare time much more colorful. Many types of book like this.

#### **Marla Fiske:**

As a student exactly feel bored to help reading. If their teacher asked them to go to the library in order to make summary for some guide, they are complained. Just very little students that has reading's soul or real their hobby. They just do what the educator want, like asked to the library. They go to at this time there but nothing reading seriously. Any students feel that reading through is not important, boring and also can't see colorful images on there. Yeah, it is for being complicated. Book is very important to suit your needs. As we know that on this period, many ways to get whatever you want. Likewise word says, many ways to reach Chinese's country. So , this Surface Production Operations: Volume III: Facility Piping and Pipeline

Systems: 3 can make you experience more interested to read.
