Work-Based Learning in Clinical Settings: Insights from Socio-Cultural Perspectives Cook Viv, Daly Caroline, Newman Mark

The importance of learning in the workplace has long been recognised in clinical education, however the twin demands of the explosion in clinical knowledge and the changing dynamics of the clinical workplace have exposed the shortcomings of existing clinical learning practices and understandings of clinical learning in the workplace. There is a growing demand for conceptual and methodological tools that can help to develop understanding of the complex set of relationships involved in learning in professional healthcare contexts. This ground-breaking volume brings together the work of pioneering scholars of learning and is unique in providing a detailed account of socio-cultural theory in relation to clinical education. Work-based Learning in Clinical Settings clearly illustrates the potential breadth of application and the strength and diversity of research in this field. Each chapter engages with a distinct issue and follows a specific structure to present an extended case-based presentation of the research that explains the: .architecture of the concept or theory .application of the concept/theory to clinical education .methodological approaches used as well as the implications and limitations . understanding of the workplace clinical learning that emerged as a result of the research It is ideal for professionals in clinical education, healthcare policy makers and shapers, and postgraduate students who will find the thorough, innovative research enlightening.
