Concepts in Law and Economics: A Guide for the Curious

Jim Leitzel

Concepts in Law and Economics: A Guide for the Curious Jim Leitzel

"Law and economics" involves the application of economic analysis to legal problems. Law and economics features in public policy debates as well as across the social sciences in fields such as political economy, constitutional economics, and political science.

Concepts in Law and Economics: A Guide for the Curious provides a comprehensive integration of the fields of law and economics. In clear prose, Jim Leitzel challenges traditional approaches to law and economics and uncovers common themes that cut across the two fields, providing readers with a means of integrating their knowledge to examine problems through both a legal and economic lens. This book covers the major methods of law and economics and applies those methods to various issues, including art vandalism, sales of human kidneys, and the ownership of meteorites. Compact yet comprehensive, this is an ideal introduction to a vast number of concepts and controversies in the fields of law and economics. Economics students, law students, and those with a general interest in the social sciences will find *Concepts in Law and Economics* an interesting and engaging read, and will emerge with the necessary skills for thinking like a law and economics practitioner.
