Marinetti Dines with the High Command (Essential Drama Series) Richard Carvell

Marinetti Dines with the High Command is a work that dramatizes the turbulent life and times of F. T. Marinetti, founder of Futurism, the first global art movement. Marinetti's artistic career raises enduring questions about art and politics because of his association with Fascism, and the second part of my work is an essay which explores the implications of this association. What makes Marinetti unique is that it is the first work that assesses Marinetti's life in the context of a command performance he gave for the German High Command in January of 1934 -- and the spectacular conclusion to that performance.
