In a balkanized future of dizzying possibilities, mercenaries contend with guns as smart as they are, nuclear deterrence is a commodity traded on the open market, teenagers deal in "theologically correct" software for fundamentalists, and anarchists have colonized a planet circling another star. Against this background, men and women struggle for a better future against the betrayals that went before. Death is sometimes the end, and sometimes something altogether different...

This volume comprises *The Star Fraction* and *The Stone Canal*.
