New Green Home Solutions: Renewable Household Energy and Sustainable Living Dave Bonta

Green living begins at home, and New Green Home Solutions tells you how. Most of the energy-derived pollution we produce comes as a direct result of our homes - how we heat them, how we cool them, how we keep them well-lit and full of things that make our lives so comfortable. The good news is that we have tremendous power to create change. Renewable energy design, better insulation and more efficient appliances could reduce energy demands by 60 to 80 percent. By embracing conservation and renewable energy, we can win our energy independence and help save the planet.

Dave Bonta, president and founder of USA Solar Stores, the largest alternative energy retailer in the Northeast, has written about alternative energy and sustainable living for Green Living, Back Home Magazine, Alternative Energy Retailer and The Vermont Guardian. Bonta has studied renewable energy and energy efficiency for more than twenty years, is a frequent speaker at major green energy conferences across America and is a tireless advocate for green living. Also president of BioQuantum, Inc., a bio-fuels company, Bonta is the creator of BackHome chapters in America and is president of a renewable energy community organization, The Sustainable Valley Group.

Stephen Snyder, communications director for USA Solar Stores, is also the author of The Brewmaster's Bible (HarperCollins), The Beer Companion (Simon & Schuster) and The Brewmaster's Recipe Manual.
