Designed to be used in tandem with the *Understanding Pathophysiology, 5th Edition* textbook, this study guide provides an in-depth review of the most important pathophysiology facts and information. Learning objectives, *Memory Check!* boxes, and practice examinations for each chapter hone your understanding and help you review key concepts from the text. This edition also features a greater variety in exercises and more case study questions for further analysis. Answers to the practice examinations and a discussion of each case study question can be found in the back of the study guide.

- **Comprehensive coverage** corresponds with the main text -- the bestselling pathophysiology text on the market.
- **Learning objectives** keep your focus on the essential information in the text.
- **Memory Check! boxes** help you remember key points from the text.
- **Algorithms** include flowcharts of diseases and disorders.
- **Practice examinations** provide immediate feedback on content learned.
- **More than 35 case studies** improve your critical thinking skills.
- **Answers to case studies and practice examinations** appear at the end of the book so you can receive immediate feedback.
- **1000+ questions** offer complete coverage of all areas of pathophysiology.
- **Updated content** reflects the major updates in the main text, particularly in the units on mechanisms of self-defense, cellular proliferation, and the neurologic system.
- **More case studies and a greater variety of exercises** have been added to this edition to strengthen your understanding of textbook concepts.
