**MILA 2.0** Debra Driza

"One part teen love story and two parts super-spy thriller, MILA 2.0 raises plenty of questions of humanity, warfare, and artificial intelligence, but it's the James Bond-esque suspense and formidable heroine that kept me enthralled to the last page." --**New York Times bestselling author Marissa Meyer (CINDER)**

No one suspects what she's made of...

Mila was living with her mother in a small Minnesota town when she discovered she was also living a lie.

She was never meant to learn the truth about her identity. She was never supposed to remember the past.

Now she has no choice but to run--from the dangerous operatives who want her terminated because she knows too much, and from a mysterious group that wants to capture her alive and unlock her advanced technology.

Evading her enemies won't help Mila escape the cruel reality of what she is and cope with everything she has had to leave behind. However, what she's becoming is beyond anyone's imagination, including her own, and that just might save her life.

A compulsively readable sci-fi thriller, **Mila 2.0** is Debra Driza's bold debut and the first book in an action-filled, Bourne Identity-style trilogy.
