Binary Options: Strategies for Directional and Volatility Trading (Wiley Trading) Alex Nekritin
The first comprehensive guide to trading a unique class of options to manage risk and make smarter bets during volatile trading

Providing savvy market players with a way to react quickly to event-driven opportunities and trends, exchange traded binary options are a unique type of derivative instrument offering fixed risk and reward. Available on four asset classes—stock index futures, commodity futures, Spot Forex and economic data releases—they are distinctly different from regular put/call options in that their pay-out structure offers only two potential outcomes, or settlement values: 0 or 100. The first guide focussing exclusively on this fast-growing sector of the options market, *Trading Binary Options* examines the key differences between regular options trading and binary options trading and describes how binary trading is done. It also gives you the lowdown on the most successful binary trading strategies and how and when they should be deployed.

- Outlines a rigorous approach to trading directionally around specific events, such as an earnings release, a shift in currencies, or a release of economic data
- Provides the first comprehensive coverage of an increasingly popular but poorly understood trading instrument
- Offers in-depth discussions of the six characteristics that distinguish binaries from other options and that make them such an attractive vehicle for hedging risk and improving returns

From reader reviews:

Carolyn Bailey:

What do you ponder on book? It is just for students because they're still students or the idea for all people in the world, what the best subject for that? Just simply you can be answered for that problem above. Every person has several personality and hobby for each other. Don't to be pushed someone or something that they don't need do that. You must know how great as well as important the book Binary Options: Strategies for Directional and Volatility Trading (Wiley Trading). All type of book would you see on many resources. You can look for the internet methods or other social media.

Robert Hensley:

Playing with family within a park, coming to see the marine world or hanging out with friends is thing that usually you will have done when you have spare time, after that why you don't try point that really opposite from that. 1 activity that make you not feeling tired but still relaxing, trilling like on roller coaster you have been ride on and with addition details. Even you love Binary Options: Strategies for Directional and Volatility Trading (Wiley Trading), you are able to enjoy both. It is excellent combination right, you still need to miss it? What kind of hang-out type is it? Oh occur its mind hangout men. What? Still don't understand it, oh come on its named reading friends.

Richard McCormick:

In this era globalization it is important to someone to get information. The information will make professionals understand the condition of the world. The health of the world makes the information quicker to share. You can find a lot of recommendations to get information example: internet, classifieds, book, and soon. You can view that now, a lot of publisher in which print many kinds of book. The actual book that recommended to you personally is Binary Options: Strategies for Directional and Volatility Trading (Wiley Trading) this reserve consist a lot of the information from the condition of this world now. This particular book was represented how does the world has grown up. The words styles that writer value to explain it is easy to understand. The actual writer made some analysis when he makes this book. Honestly, that is why this book acceptable all of you.

Virginia Berry:

As a university student exactly feel bored to reading. If their teacher questioned them to go to the library as well as to make summary for some book, they are complained. Just very little students that has reading's heart or real their leisure activity. They just do what the professor want, like asked to go to the library. They go to there but nothing reading very seriously. Any students feel that looking at is not important, boring and can't see colorful images on there. Yeah, it is to become complicated. Book is very important for you. As we know that on this age, many ways to get whatever you want. Likewise word says, ways to reach Chinese's country. Therefore , this Binary Options: Strategies for Directional and Volatility Trading (Wiley Trading)

can make you sense more interested to read.
