Software for Computer Control 1986: Selected Papers from the Fourth IFAC/IFIP Symposium, Graz, Austria, 20-23 May 1986: 4th (IFAC Symposia Series) D. Florian

This volume studies the advances of software for computers, their development, applications and management. Topics covered include software project management, real time languages and their uses, and computer aided design techniques. The book also discusses how far artificial intelligence is integrated with business and industry to give a complete overview of the role of computer systems today.
