Camp Chase, Columbus, Ohio, 1861-1865: A Study Of The Union's Treatment Of Confederate Prisoners Major Jack Morris Ivy Jr. USAF

Camp Chase, four miles southeast of Columbus, Ohio, began in May 1861 as a mustering center for units entering Union service during the American Civil War. By June 1861 it picked up additional responsibilities of housing Confederate prisoners captured by Ohio units during the earliest military actions of the war. It eventually expanded to hold 9,423 prisoners in January, 1865, which made it one of the larger Union prison camps.

The earliest prisoners were afforded extraordinary leniency by state authorities until the Union government stepped in with rules and regulations. By October 1862, an effective system was in place to secure and care for prisoners. Success continued despite fluxuations in prison population, disease and a constant influx of captured wounded, until August 1864 when rations were reduced in retribution for Confederate treatment of Union captives.

Ration reduction caused prisoners hardships but did not markedly increase mortality. Quality medical care and sanitation kept mortality below Union Army deaths from disease.

As prison population soared during the last months of the war, increasing numbers of wounded, severely exposed and weakened captives joined Camp Chase. Reduced rations continued to pose hardships but ration reduction was offset by superb medical care and sanitation which continued to keep mortality below that experienced by the Union Army from disease.

The study confirms William B. Hesseltine's study of prisons in his book, *Civil War Prisons: A study in War Psychology*, and examines Confederate prisoner of war mortality, comparing it to Union soldier mortality from disease. The thesis concludes that William B. Hesseltine's thesis is partially correct when applied to Camp Chase. Prisoners were well treated up to the time rations were reduced in retaliation for alleged Confederate cruelties to Union prisoners. In spite of this, Camp Chase officials continued to stress sanitation and provide clothing late in the war even though they were not obligated to do so. This demonstrated that officials at Camp Chase were successful in managing a prisoner of war camp, even during the period of Union retaliation.
